

RGC

REIMANN&GEORGER CORP.

Personal Watercraft Lifts

Reliable protection and dependable durability in 3 different styles.

Choose the lift that's right for you:

- ➔ **HYDRAULIC** The top choice of PWC owners, RGC's Hydraulic lift will have you on the water in seconds with easy operation and ultimate protection.
- ➔ **VERTICAL** The Vertical lift will keep your watercraft safe and secure with simplicity and durability you can count on. Customizable drive options and accessories allow the right fit for any need and budget.
- ➔ **CANTILEVER** For those who value flexibility and simplicity, the Cantilever lift delivers. All models come standard with 4 adjustable legs and 30" handwheel.

BUILT TO LAST

PWC and Small Craft Lift Features

HYDRAULIC LIFT FEATURES:

- Accommodates watercraft up to 2,000 lbs.
- Fast, smooth, quiet lifting at the push of a button
- Marine Grade Aluminum and welded frame construction
- Optional solar panel offers clean, free, low maintenance power
- 2 remote transmitters for control of your lift from a distance

VERTICAL LIFT FEATURES:

- Supports up to 2,000 lbs.
- Large lifting height, up to 75"
- Easy installation, adjustability and customization
- Corrosion resistant steel cables and hardware for longevity
- Low maintenance polymer sheaves prolong cable life

CANTILEVER LIFT FEATURES:

- Supports PWC's and small boats up to 1,200 lbs.
- Easy installation, adjustability and customization
- All units come standard with 4 adjustable legs & 30" handwheel
- Winch and handwheel mounts to either side of lift
- Upgrade to powered lifting with an optional friction drive.
- AC or DC and remote control options available.

ACCESSORIES:

- **Bow Stop** Securely positions your boat in the cradle.
- **Vertical Guide Posts** Safely guides and protects your boat on entry and exit.
- **Solar Panel** Provides clean, free, low maintenance power.
- **Shallow Water Footplates** Offer stable footing in shallow water installations.
- **Deep Water Extension Legs** Enhance safety and support and level off in deep water. Offered in 5 lengths: 29.5", 4', 6', 8' and 10'.
- **Screw Adjustable Legs** Easily adjustable and equipped with large foot plates to provide superior stability. (VL16065 & VL20100 only)

Drive Options: (Cantilever & Vertical only)

VLDD Electric Power Drive Dependable AC or DC power with remote control option. Equipped with Limit Switch for protection of the lift and your watercraft.

Extreme Max Power Drive Powers RGC's R18 Winches and offered in AC or DC. Choose from switch, remote fob or remote lanyard.

R18LT Patented Winch RGC's patented winch with an 18:1 ratio provides easy raising or lowering.

Handwheel with Optional Friction Drive RGC's handwheel may be used alone to lift manually, or add an optional friction drive for easy lifting.

Model	Weight Capacity	Maximum Beam	Lifting Height	Minimum Platform Height	Bed Length	Overall Width (inc. feet)	Overall Length (inc. feet)	Adjustable Legs	Weight (approx.)
